

Employee and Manager Dashboard

Experience a new era of streamlined HR management with intuitive Employee & Manager Dashboard provided through Zalaris PeopleHub. You can now seamlessly navigate through multiple HR processes within just one interface to gain invaluable insights into employee's individual data and organisational workforce data.

Overview of the solution:

Employee & Manager Dashboard provided through Zalaris PeopleHub offers a transformative approach to HR management by shifting the focus from individual solutions to holistic HR processes. With our Dashboard view, you can experience a centralised landing page, conveniently located under the "Home" section. This dynamic Dashboard presents a collection of tiles, each offering a snapshot of essential information across various HR processes.

By consolidating key data points into a single view, our Dashboard empowers you with comprehensive insights at a glance.

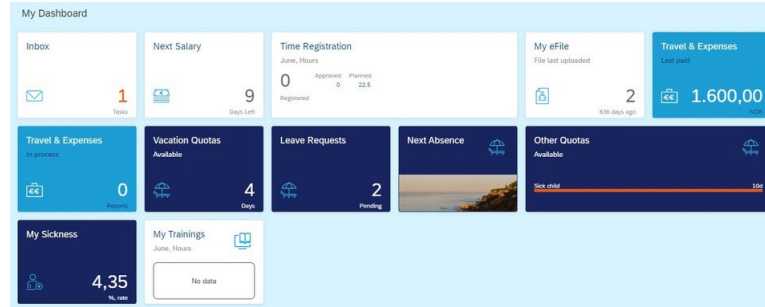

Features of the solution:

For employees:

- ✓ The dashboard offers a comprehensive view of various HR processes to view specific updates, like leave balance, time registration, payroll, travel reimbursement etc. thereby can monitor multiple HR processes simultaneously through one dashboard.
- ✓ Helps receive HR information and updates in a concise and organised manner through the use of tiles.
- ✓ Allows employees to personalise the dashboard layout and choose the HR tiles that are most relevant to their needs.

For employers:

- ✓ Access relevant employee information and data at a glance thereby helping to track the progress and status of various HR processes in real-time.
- ✓ Centralises and maintains employee information for a comprehensive view of the workforce.
- ✓ Allows companies to tailor the dashboard to meet the unique needs of the managers and organisation.
- ✓ Provides a secure and intuitive interface while being GDPR compliant.
- ✓ Can easily integrate with any existing core HR system to maintain data integrity and streamline operations.

Benefits of the Solution:

By shifting the focus from disparate solutions and applications to HR processes as a whole, the dashboard provides a holistic view of your HR landscape. With a glance at the dashboard, you can gain immediate access to the most crucial process statuses and other HR-relevant information. This streamlined approach allows you to make informed decisions and take proactive measures, ensuring operational efficiency and employee satisfaction.

By providing access to relevant HR data and insights, the dashboard facilitates effective communication between managers, employees, and HR teams. Real-time visibility into process statuses enables timely interventions and proactive decision-making, leading to improved productivity and employee engagement. With its user-friendly design and powerful capabilities, the Employee & Manager Dashboard empowers organisations to streamline HR processes, drive operational excellence, and create a positive and efficient work environment.

How does it scale your HR & Payroll?

With the dashboard's scalable architecture, it seamlessly adapts to the size and complexity of your organisation. Whether you have a small team or a global workforce spread across multiple locations, the dashboard accommodates your needs and grows with your business. Its flexibility enables you to configure and customise the dashboard to align with your unique HR processes, ensuring that it scales effortlessly to meet your evolving requirements.

Choose the transformative power of an intuitive Employee & Manager Dashboard to boost your employee experience.
