

# HR Master Data Solution

Unite HR systems effortlessly and make informed decisions with Zalaris HR Master Data Solution- Your central hub for seamless employee data management, fortified by ironclad security.

## Overview of the solution:

Introducing Zalaris HR Master Data Solution – the definitive answer to your organisation’s HR data management needs. Our centralised system serves as the backbone of Zalaris’ comprehensive product suite, streamlining the management of employee master data with unrivaled efficiency and precision.

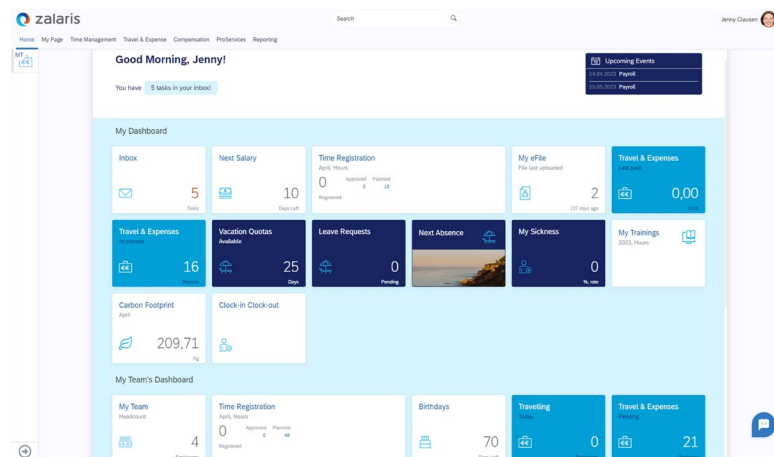

As the singular source of truth for all your HR data, our solution empowers your HR professionals to access accurate and up-to-date information in real-time, from basic employee details to complex benefits, payroll, and time management data. Elevate your HR management experience, unite your HR systems effortlessly, and unleash the true potential of your workforce with Zalaris HR Master Data Solution.

## Features of the solution:

- ✓ A secure and centralised repository for all employee master data, including personal information, benefits, payroll details, and more.
- ✓ Helps implement robust security measures to protect sensitive employee data, ensuring GDPR compliance and safeguarding against data breaches.
- ✓ Effortlessly interface with existing HR systems, ensuring smooth data synchronisation and reducing data inconsistencies.
- ✓ Tailors the solution to match clients’ and employees’ needs, enabling businesses to adapt and scale the system as per their growth strategy.
- ✓ Assign role-based access controls to ensure that the right individuals have the appropriate levels of access to employee data, maintaining data security and privacy.
- ✓ Improve overall HR operational efficiency by providing a unified platform for data management, reducing administrative burden, and optimizing processes.

## Benefits of the Solution:

The solution consolidates all HR master data into one secure platform, ranging from basic employee details to intricate information like benefits, payroll, and time management. This cohesive repository reduces the risk of data inconsistencies, ensuring that HR professionals can confidently make well-informed decisions based on accurate and up-to-date information.

By empowering HR teams with reliable data, the solution optimises workforce management and fosters a more agile and efficient HR environment.

The seamless 3rd party integration capabilities of Zalaris HR Master Data Solution further enhance its utility. The solution effortlessly interfaces with existing HR systems, enabling real-time data synchronisation between different platforms.

Zalaris’ Master Data Solution propels HR management to new heights, fostering seamless collaboration, data-driven decision-making, and improved organisational success.

## How does it scale your HR & Payroll?

Zalaris’ Master Data Solution scales your HR and payroll capabilities with unparalleled flexibility and efficiency. The solution’s scalability is designed to cater to the unique needs of your organisation and can easily adapt as your workforce grows and evolves. Whether you have a small team or a large multinational workforce, Zalaris’ Master Data Solution provides a centralised platform to manage HR master data seamlessly.

By harnessing the power of Zalaris’ Master Data Solution, your HR and payroll operations can scale effortlessly, enabling you to focus on strategic workforce management and driving organisational success.

Experience a new level of flexibility, efficiency, and security in your HR and payroll processes with Zalaris’ Master Data Solution.
