

# Learning Management Solution

Increase the take-up and impact of learning and training opportunities so you improve performance across your workforce. With our online learning management solution you can increase productivity and encourage motivated employees to stay with your business. In a tight labour market, highly skilled, engaged staff bring you exceptional competitive edge.

## Overview of the solution:

With the Zalaris' Learning Management Solution your employees will learn more with personalised content that is relevant to their daily activities. You will also reduce risk and ensure compliance as training is automated, and drive skills management, learning and career development that is delivered through social and mobile channels your staff prefer. The result is a higher-performing business where employees feel they are contributing to your success.

## Features of the solution:

### For employees:

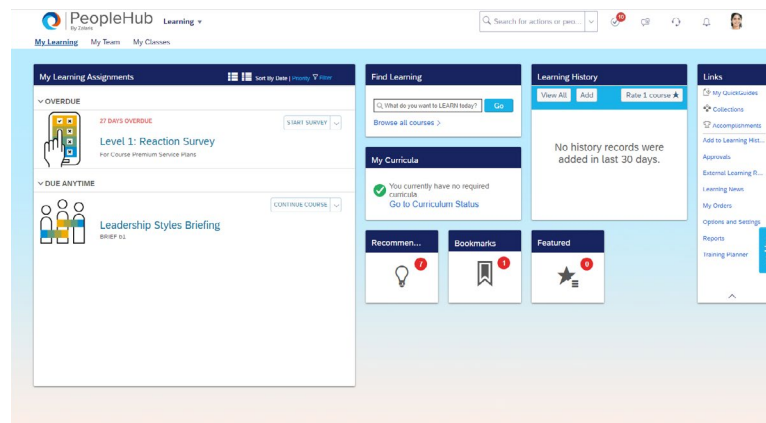

- ✓ Virtual learning modules available whenever suits their schedule.
- ✓ Learning matched to their day-to-day work context.
- ✓ Easy-to-access training and learning wherever and whenever they need it.
- ✓ Self-directed learning so they progress at their pace.
- ✓ Higher engagement from increasing their skills and professional development.

### For employers:

- ✓ Faster employee productivity.
- ✓ Ensure staff are trained to work according to regulated processes.
- ✓ Reduce employee turnover.
- ✓ Lower service and support costs.
- ✓ Speedy onboarding of new staff.

## Benefits of the solution:

Build your workforce of tomorrow with the Zalaris Learning Management Solution. You can boost learning engagement by curating learning experiences for individuals, teams, departments and geographies that are aligned to their needs and your business goals.

LMS Solutions help you prepare your people for the future, motivating them to remain within your organisation as they progress their skills rather than seeking another job elsewhere. They thrive by learning in the flow of work. Blended learning with personalised content is available for them to access virtually whenever they want, at their desk or on the move.

## How does it scale your HR & Payroll?

With our online learning management solution you can provide educational support to drive employee development at all stages of the career journey from hire to retire. You can reduce the time needed to onboard new employees, a critical factor for fast-growth organisations and essential if you are expanding across multiple territories. You will also keep your workforce engaged because LMS solutions provide calibrated learning to take them to each new step of their career development.

However big your business grows you can minimise compliance problems by automating and assuring compliance training, minimising legal risk and meeting government reporting requirements. Our online learning management solution improves regulatory adherence by ensuring employees have all the certifications and credentials they need for the safe and effective operation of your business.

The Zalaris Learning Management Solution is founded on a powerful and elegant user experience to make learning as easy and enjoyable as possible for your workforce. Learning is self-directed to keep your learners engaged, while our LMS solutions leverage social, mobile and analytical capabilities for seamless delivery.
