Mobile Solution

When you have employees on the move across multiple countries and time zones, the Zalaris Mobile Solution gives them smoother and more secure access to all the essential Zalaris PeopleHub self-service functions that take a weight off the shoulders of your HR team.

Overview of the solution:

Employees can register time, view their pay slips, access personal data and their approvals inbox, and log time and travel expenses wherever they are on their mobile phone or tablet. The immediacy of the Zalaris PeopleHub App increases compliance to company policies and governance, and for the widest adoption it is compatible with both Apple iOS and Google Android devices.
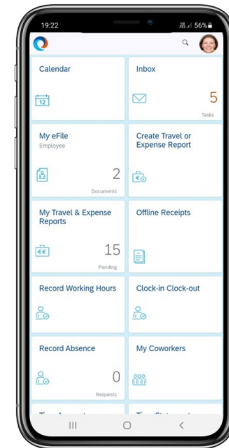

Features of the solution:

For employees:

- ✓ Support flexible work schedules.

- ✓ Ideal when staff are frequent travellers across your global network.

- ✓ Capture more accurate data.

- ✓ Strengthen accessibility and ensure timely workflow approvals.

- ✓ Highly flexible and secure application for on the go.

For employers:

- ✓ Downloadable from the App Store (iOS) and Google Play Store (Android).

- ✓ Fast and secure access to PeopleHub self-service portal, anywhere and anytime.

- ✓ Staff can make instant expense claims when they're on the road – so they never lose another receipt.

- ✓ Issue faster refunds.

Benefits of the solution:

The Zalaris Mobile Solution is an innovative and convenient app that simplifies business HR processes. It will encourage your employees to track their travel and expenses, request time off, maintain their data and much more – all on the go.

The immediacy and ease of use that employee mobile solutions bring will increase compliance with company travel and expenses policy and support governance as staff scan and upload their receipts to make instant expense claims. Data is more accurate and refunds issued faster.

Our mobile solution handles attendance and absence registration, electronic pay slips and a host of other self-service tasks, reducing manual processes and the admin burden on your HR function.

How does it scale your HR & Payroll?

The Zalaris PeopleHub mobile app is perfect for organisations scaling up over multiple territories. It is a mobile application specifically designed to make your HR systems available to employees securely, anywhere and anytime.

It is built to enable flexible work schedule requirements where staff spend more time out on the road with customers, on site visits or on sales campaigns than being desk bound in the office.

Supported by Android and iOS devices the world over, it strengthens accessibility and encourages employees to make timely expenses claims and requests for absence even if they are thousands of miles from head office.

Whatever the size of your business, whether you are an ambitious startup or a multinational operating on five continents, Zalaris' PeopleHub mobile app ensures speedy workflow approvals for streamlined HR action around the globe.

Many employee mobile solutions claim to match the demands of growing companies but only the Zalaris Mobile Solution covers all you need in a way that simplifies business processes while future-proofing your systems as you continue to expand.
